#### Introduction

- Enclosed is the weekly Treasury Single Account ("TSA") cash flow report, supporting schedules and budget to actual variance analysis.
- TSA means the Commonwealth's main operational bank account (concentration account) in which a majority of receipts from Governmental funds are deposited and from which most expenses are disbursed.
- Beginning April 2016, TSA receipts are deposited in a commercial bank account rather than the Government Development Bank for Puerto Rico ("GDB").
- Receipts in the TSA include tax collections (including revenues assigned to certain public corporations and pledged for the payment of their debt service), charges for services, intergovernmental collections (such as reimbursements from Federal assistance grants), the proceeds of short and long-term debt issuances held in custody by the Secretary of Treasury for the benefit of the Government fiduciary funds, and other receipts. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA.
- Disbursements from the TSA include payroll and related costs, vendor and operational disbursements (including those reimbursed by Federal assistance grants and funded from Special Revenue Funds), welfare expenditures, capital outlays, debt service payments, required budgetary formulas and appropriation payments, pass-through payments of pledged revenues to certain public corporations, tax refunds, payments of current pension benefits and other disbursements.
- Federal funds related to disaster relief for hurricanes Irma and Maria are deposited in a separate bank account overseen by the Government Authorized Representative ("GAR"), and transferred to the TSA only after admissable disbursements (per approved Project Worksheets) have been made. These inflows to the TSA will be captured on the Federal Funds Receipts (Schedule C); outflows will be captured on the Vendor Payments (Schedule E).
- Data for TSA inflows/outflows is reported from various systems within the Department of Treasury of Puerto Rico ("DTPR"):

Cash Flow Actual Results - Source for the actual results is the TSA Cash Flow.

Schedule A - Collections - Source for collections information is the DTPR collections system.

Schedule B - Agency Collections - Source for the agency collections is DTPR.

Schedule C - Federal Fund Receipts - Source for the federal funds receipts is DTPR.

Schedule D - Net Payroll - Source for net payroll information is the DTPR Rhum Payroll system.

Schedule E - Vendor Payments - The source for vendor payments is the Bank checks paid report and a report from the DTPR PRIFAS system.

Schedule F - Other Legislative Appropriations - Source for the other legislative appropriations is DTPR.

Schedule G - Central Government - Partial Inventory of Known Short Term Obligations - Sources are DTPR.

- Data limitations and commentary:

The government has focused on the seven schedules above for which access to reliable, timely, and detailed data is available to support these items. The government continues to work with DTPR and other parties to access additional reliable data that would help us provide detail in the future for other line items in the Cash Flow.

### FY 2018 TSA Forecast Key Assumptions

- The FY 2018 Treasury Single Account cash flow forecast was prepared at the beginning of the fiscal year based on the approved FY 2018 Budget, was projected monthly through June 2018, and is used as the benchmark against which weekly results are measured. As a result of material economic and operational changes stemming from Hurricane Maria, DTPR is in the process of developing a reforecast of TSA cash flows to year-end. Until that time, the original TSA forecast will continue to serve as the measure for weekly cash flow variances.
- Forecast collections and disbursements through the General Fund and Federal Fund are consistent with the approved FY 2018 Budget, with the exception of payroll outlays which were forecast based on run-rate cash disbursement trends, and budget reserves which are non-cash and do not impact the TSA direct cash flows.
- TSA General Fund inflows are "gross" collections and therefore higher than presented in the approved FY 2018 Budget, which considers General Fund revenues net of current year tax refunds (estimated \$480mm).
- In addition to tax refunds disbursed in FY 2018 for the current tax year (totaling \$480mm), forecast considers repayment of deferred tax refunds from CY 2016 and prior, totaling approx.
   \$270mm.
- Payroll outlays are based on FY 2017 actual results, less savings measures; inclusive of segregated employee contributions (\$349mm for the year). Payroll disbursed through the TSA is done so on a bi-weekly basis, approximately on the 15th and 30th of each month.
- Pensions reflect the implementation of the pay-as-you-go model in FY 2018. Retirement system inflows represents deposits from municipalities and corporations net of administrative expenses. Figures also include asset sales, occurring in July 2017.
- Assumes collections and outlays of Federal Funds are equal in FY 2018 (zero net cash impact), excluding potential timing impact.
- Clawback funds set aside prior to June 2016 (approx. \$146mm held at BPPR accounts and \$144mm held at GDB) are excluded from the cash balance.
- Assumes \$592mm of Reconciliation Adjustment as per the approved FY 2018 Budget and March 13 certified Fiscal Plan, which is projected separately from supplier payments and distributed evenly over 12 months. No further provision has been made for potential contingent liabilities against the government.
- The forecast assumes that beginning November 2017, COFINA SUT collections flow to the General Fund and are available to the TSA for operational purposes, totaling approx. \$316mm in incremental collections in the forecast. To date these funds have flowed, and are expected to continue to flow, to the COFINA bank account (BNY Mellon), which will create a weekly variance from November-forward.

# Positive weekly variance is primarily due to the timing of collections and their deposit into the TSA. YTD Collections variances are mainly driven by lower collections due to the impact of Hurricane Maria.

As of November 24, 2017

- 3 Negative weekly variance due to the combination of: (i) condensed week of operations resulting from two holidays observed, (ii) Executive Order No: OE-2017-068 issued on 11/8 to temporarily exempt small and medium companies ("PYMES") from SUT, including the SUT payment from the purchase of inventory for resale (estimated "\$26M negative impact in total from 11/20 to 12/31), and (iii) original forecast assumption of SUT payments from large corporations on the 20th of each month which has not been followed consistently post-hurricane.
- 5 YTD variance is due to better-than-projected Qt Rum tax collections. This trend is being assessed to determine whether / to what extent rum tax collections will continue to outperform forecast.
- 8 This is a timing variance that is expected to reverse later this fiscal year.
- 11 Weekly and YTD variances in federal fund receipts are partially offset by variances in vendor disbursements (line 32), federal fund appropriations to ASES (line 25), and disbursements related to the Nutritional Assistance Program (line 35). The remaining variance is timing related.
- $\textbf{19} \quad \text{Weekly \& YTD variance is timing related and expected to reverse in subsequent weeks.}$
- 18,20 Variance is timing related, as Christmas bonuses originally forecast for December were paid on 11/24.
- 24 Weekly variance in pension benefit payments is timing related, as Christmas bonuses originally forecast for December were disbursed on 11/24. YTD Pension PayGo outlays outflow variance is offset by a reduction in contributions from pension systems (line 8), as there is no corresponding pension inflow for this outflow as notuded within the original forecast. Remaining variance is assumed to be timing related and is expected to reverse later this fiscal year.
- 25 Weekly and YTD variances are timing related, as they are offset by a temporary reduction in federal fund receipts.
- 27-30 Weekly and YTD variances in these appropriations are timing related and expected to reverse in subsequent weeks.
- 92 Prior to Hurricane María (as of 9/15), there was a positive YTD variance in vendor disbursements of ~592M due to a slower-than-forecast cadence for invoice processing. Additionally, invoice entry has been hindered due to technical issues stemming from Hurricane María. Manual invoice data entry is the main driver of slower invoice processing. This variance is expected to reverse throughout the course of the year as technical issues are resolved, and will largely depend on how quickly the largest agencies (Dept of EDU, Health, etc) resume a normal cadence to recording invoices.
- 36 This variance is offset by GDB Transactions (relates to legacy debt service deposit agreement) variance in inflows (line 14), with remaining variance due to timing of Other Disbursements.
- 37 Reconciliation Adjustment deferred to later this fiscal year.

#### Footnotes:

- (a) Reserve for tax returns (\$480 million) has not been deducted. Includes Special Revenue Fund portion of posted collections.
- (b) Paygo charges to municipalities and public corporations collected at the TSA.
- (c) As of the date of this report, no federal funded account balances have been transferred to the TSA that relate to disaster relief.
- (d) Inflows related to the State Insurance Fund, the Department of Labor and Human Resources, the Commissioner of Financial Institutions, and others.
- (e) Payroll is paid bi-weekly on the 15th and 30th (or last day of the month, whichever comes sooner).
- $(f) \ \textit{Related to employee withholdings, social security, insurance, and other deductions.}$
- (g) Police payroll is reflected individually because it is paid through a separate bank account. Also, the police payroll line item shown in the TSA cash flow is gross (i.e. inclusive of Other Payroll Related items).
- (h) Includes payments to third-party vendors as well as intergovernmental payments to other agencies.
- (i) This refers to General Fund appropriations to non-TSA entities such as Legislative Assembly, Correctional Health, Comprehensive Cancer Center, and others.
- (j) Excludes BPPR Account with balance of approximately \$146mm; Amounts deposited in GDB subject to GDB restructuring.
- (k) Unless otherwise stated, variances are either not material in nature or are expected to reverse in the short term.
